Webinar

Innovations in human resources development in inclusive enterprises

**New solutions for the professional training of
workers and managers in inclusion related skills**

When ?

Tuesday 6 October 2020 - From 10 am to 1 pm

What ?

Human resources development and human resources management in inclusive enterprises are necessary for both: skilled workers with and without disabilities and for managers and executives.

The 5 partners of the ERASMUS+ project work on :

- ✓ An innovative frame of reference for in-service professional training (using the example of the cleaning / laundry and other services sectors)
- ✓ Curricula and modules for the training of managers (focus: creation of inclusion-oriented structures and processes in the companies).

The results to be presented in the conference are based on surveys in Inclusive Enterprises in Belgium, France, Spain and Germany, expert interviews and discussions and joint evaluation of the answers at partnership level.

The results serve as a proposal for future standards at European level.
